

Holley Dental Group

Personalized Service for Every Patient

[ABOUT US](#)

Welcome to Our Dentistry Practice

SERVING PRATTVILLE, AL, SINCE 2001

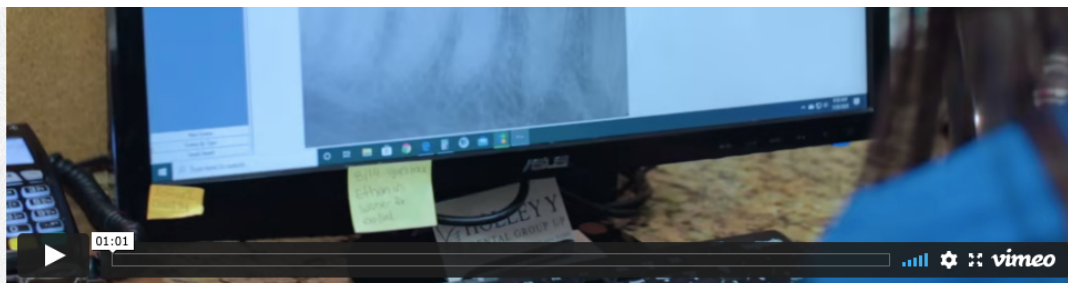

Dr. Matthew D. Holley founded Holley Dental Group in 2001. Dr. Graham Mullins joined our team in 2016. Now, our two dentists work together to offer a full suite of dental services to children, teens, adults, and seniors in Prattville, AL.

Whether you require [a basic cleaning and exam](#) or advanced dental surgery, our team can meet your needs. Our office features state-of-the-art technology that makes dentistry more precise and efficient than ever before. Plus, we offer [sedation services](#) that can help you relax during your treatment.

If you're looking for a new dentist in the Prattville area, we encourage you to give our office a call. We are always ready to welcome new patients.

What Makes Us Unique?

In this video, some of our team members explain what makes our dental practice so special. We are a tight-knit group that loves to have fun with our patients. Schedule a visit today for a great dental experience.

Meet Our Dentists

Matthew D. Holley, DMD

Dr. Holley received his dental degree from the University of Alabama School of Dentistry. He then went on to found our Prattville practice in 2001. He is skilled in all forms of dentistry, including the placement of dental implants.

Graham Mullins, DMD

Dr. Mullins received his undergraduate degree from Auburn University of Montgomery and his dental degree from the College of Dental Medicine at Midwestern University - Illinois. He remains an avid Auburn fan.

Request an Appointment

[First Visit Expectations](#)

"Such a Pleasant Experience."

Angela Carlson
2021

Had my first visit today at Holley Dental Group. The dental hygienist I saw, Jessi, was fabulous! She was very personable and gentle on the gums while cleaning my teeth. Dr. Holley took the time to talk a bit as well before checking my teeth. Such a pleasant experience to visit a dental practice where the staff get to know you a bit first instead of just rushing you in and out.

Liz
2021

I was blown away as a first time patient with the care I received. My hygienist was very informative and knowledgeable about my procedure. Dr. Holley greeted me with a big smile, was very thorough with his explanation, and explained to me all options available for a treatment plan. The office was super clean, super efficient, and very courteous!!!

Technology that Makes a Difference

Our Prattville dentists are committed to constantly updating our in-office technology so that we can provide the most precise, efficient, and comfortable care possible. Our favorite tools include:

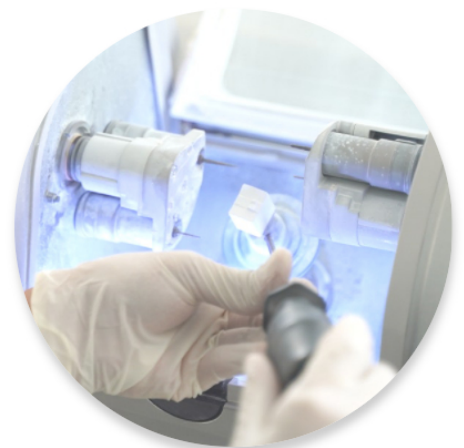

Digital Impressions

For decades, dentists have used dental putty to create physical molds of patients' bites. Biting into this putty can be uncomfortable for many patients. Fortunately, Holley Dental Group now uses digital impressions, so you'll never have to bite into putty again.

Cone Beam Scanner

Our CBCT scanner quickly and accurately captures a three-dimensional image of your jaw, gums, and teeth. Our dentists can use these scans to diagnose the causes of dental pain and to plan surgical procedures like dental implant placement or wisdom tooth removal.

CAD/CAM Technology

Our CAD/CAM (computer-aided design and computer-aided manufacturing) technology allows our dentists to design and fabricate crowns and other dental restorations in around an hour. A process that used to require weeks can now be completed during a single appointment.

DISCOVER MORE OF OUR TECHNOLOGIES

Financing Available

We accept many dental insurance plans, but if your insurance won't cover all of your treatment, or if you don't have dental insurance, then you can take advantage of flexible financing through CareCredit®. CareCredit is a reputable healthcare lender that offers low-interest and no-interest payment plans to qualifying patients.

"Found Them to be the Best Ever."

Hazel Coburn

2021

This is by far the best dental office I have ever been to. Everyone is so friendly and nice and have been so considerate of my hearing problem. I have seen both dentists at different times and have found them to be the best ever in my estimation.

Daphne Harris

2021

I had a very good experience here. I came in as an emergency patient in so much pain and they treated me like a previous patient. From the 1st initial phone call, to the front desk greeting, to Chelsea and Dr. Mullins, everyone was great, and the staff was very nurturing and caring. My husband was so impressed he said we are changing to this place. So Holley Dental I hope you have room for two more.

Featured Services

Dental Implants

Do you have missing teeth? Our dentists can use dental implants to restore health, function, and aesthetics to your smile. Dental implants replace the roots of lost teeth and attach dental prostheses.

implants replace the roots of lost teeth and attach dental prosthetics directly to the jawbone. Unlike other dentists in the area, Drs. Holley and Mullins can perform every step of implant treatment at our office in Prattville, AL, so we won't have to send you to specialists all over town.

[EXPLORE DENTAL IMPLANTS](#)

Sedation Dentistry

Do you avoid trips to the dentist because of nervousness or anxiety? You are not alone. Many of our patients struggle with some degree of dental phobia. That's why we offer multiple forms of sedation at our practice in Prattville, AL. When you take advantage of nitrous oxide, oral sedatives, or IV sedation, you'll be able to relax during your appointment, and our dentists will be able to provide the care you need to achieve excellent oral and overall health.

[EXPLORE SEDATION](#)

Porcelain Veneers

Are you unhappy with your smile? Our dentists can use porcelain veneers to instantly transform the appearance of imperfect teeth. Veneers are super-thin laminates that Drs. Holley and Mullins can attach to the surfaces of your teeth, concealing irregularities like chips, cracks, or stains. When you enhance your smile with veneers, you'll enjoy an instant boost in confidence, and you'll smile much more freely.

Invisalign

Have you avoided orthodontic treatment because you don't want to wear noticeable metal braces? Invisalign® clear aligners may be the alternative you've been looking for. The Invisalign system effectively straightens teeth while being more comfortable, convenient, and discreet than traditional braces. Our dentists can design a custom Invisalign treatment plan just for you at our practice in Prattville, AL.

[EXPLORE INVISALIGN](#)

Periodontal Treatment

Do you suspect that you may have gum disease? Your health could be at risk. To prevent tooth loss and other health problems, you should see our dentists as soon as possible to discuss treatment options. Our doctors offer scaling and root planing as well as other periodontal procedures that can clean bacteria from your teeth and gums to keep your smile as healthy as possible.
